SUMMARY

B.Tech Computer Science Engineering student with knowledge of programming languages and technologies including **HTML, CSS, JavaScript, Dart, Java, C, and C++**. Familiar with **Flutter** for cross-platform application development and development tools such as **Git and GitHub**. Possesses strong communication, team collaboration, problem-solving, adaptability, time management, and professional accountability skills. A **quick learner and collaborative team player**, eager to enhance technical expertise and contribute effectively in professional and development environments.

EDUCATION

Government Engineering College Idukki
Bachelor of Technology in Computer Science;

Kerala, India
September 2023 – Present

SKILLS

Languages	HTML, CSS, JavaScript, Java, c, c++,
Web Technologies	Responsive Web Design, DOM Manipulation, Browser APIs, Interactive Web Applications
Tools&Platforms	WordPress, WPBakery, Git, GitHub, VS Code
UI/UX & Design	UI Design, Responsive Design, User-Friendly Interfaces, Web Layout Design
Web Development	Responsive Web Design, JavaScript-Based Interactivity, API Integration, DOM Manipulation, Problem-Solving
Core Competencies	WordPress, WPBakery, Git, GitHub, VS Code
Soft Skills	Communication, Team Collaboration, Problem-Solving, Adaptability, Time Management, Professional Accountability

WORK EXPERIENCE

Intern, Idukki Collectorate

1 Month

- Assisted with administrative coordination, digital documentation, and internal communication work-flows.
- Contributed to streamlining routine processes and supported technical operations within a government setting.

PROJECTS

TerraNova Real Estate – Real Estate Website

Developed a **responsive and user-friendly real estate website** for **TerraNova Real Estate**, showcasing **residential and commercial properties** with detailed listings, images, pricing, and location information. Designed a **modern interface, smooth navigation**, and an easy **property enquiry experience** for potential buyers.

Guess the Color Game

Developed an **interactive color-guessing game** where users identify colors from given **RGB values** across different difficulty levels. Implemented **dynamic gameplay, scoring, multiple difficulty modes**, and an engaging responsive interface to provide an interactive learning and gaming experience.

Object-Oriented Programming Quiz

Developed an **interactive OOP quiz** application designed to help users test and improve their understanding of **Object-Oriented Programming concepts**. The application provides quiz questions, answer selection, **score calculation**, and instant feedback through a simple and user-friendly interface.

Text-to-Voice

Developed a **Text-to-Voice web application** that converts user-entered text into speech using the browser’s **Speech Synthesis API**. The application features a **simple, responsive interface** with text input and a one-click **Speak** function, along with input validation for empty text.

Bulb Game

Developed an **interactive Bulb Game** that allows users to **turn a bulb ON and OFF** with a button click. Implemented **dynamic image switching** and **real-time status updates** to visually indicate the bulb state, along with a simple and engaging user interface.

Job-And-Product-Marketplace (College Mini-Project)

JOBO is a Flutter and Firebase-based Job & Product Marketplace Platform that **connects local job seekers, freelancers, buyers, and sellers through a single mobile application**. The platform supports job posting, job applications, product trading, notifications, and profile management with a user-friendly interface.

EXTRACURRICULAR ACTIVITIES

Content Lead	µLearn GECI	(2025 - 2026)
Outreach	TinkerHUB, GECI	(2025 - Present)
NRPF Lead	NSS GECI	(2024 - 2025)
Sports – Handball	Represented for GECI in C-Zone	(2026)
